WHY STUDY CATHOLIC THEOLOGY?

From antiquity to the religious challenges of the present, at the Department of Catholic Theological Studies you explore the history of Christian belief and engage with the conduct and mentality of religious individuals.

In doing so, theology doesn't remain passive or theoretical; instead, it provokes critical evaluation: What purpose do religion and belief hold today for individuals and society? With this orientation, your studies provide a number of vocational options including ecclesiastical, academic, political, economic, and journalist pathways among others.

SINGLE FOCUS, MANY BENEFITS

- **PERSONAL PERSPECTIVE**
In theology, you grapple with your deepest personal questions and convictions.
- **IDEAL LEARNING ENVIRONMENT**
The small-group structure cultivates your strengths within a trusted environment.
- **DIVERSE TOPICS AND CAREER OPTIONS**
Deepen your knowledge in any of the many subject areas and practical fields.

"Studying Theology combines scientific reflection and personal belief. Understanding new perspectives, challenging the opinions of others and now and then being persuaded by their arguments myself. That's what I like about Theology!" #theomainz

Lukas Walther is a Master of Theology student.

A GREAT COMBO: THEOLOGY AS A MINOR FOR UNDERGRADUATE STUDENTS

The Catholic Theology degree can be a part of a dual-subject undergraduate course of study. This combination allows you to profitably integrate various questions and themes from Theology into the subject of your major. Doing so, you can deepen your personal interests and develop an individualized profile for your vocational future.

"Studying two subjects is absolutely worthwhile. Literary Studies and Theology, for example, complement one another wonderfully! Theology explores how people tell their story with God. On the other hand, ethics and religious history are important topics of world literature."

#theomainz

Franziska Rauh studies Literary Studies and Catholic Theology for her undergraduate dual degree.
