## STUDY PROGRAMME FOR PARTICIPANTS

A study programme will be organised by partner institutions in each of the countries on the route. The Programme will include meetings with witnesses of history, visits to museums and places of historical significance, as well as lectures and debates.

Before the trip begins, the participants will take part in a **workshop in Gdańsk**, where group members will get to know each other. The workshop programme will also enable participants to become familiar with the historical context of the venture, as well as the coverage techniques, which they will use during the trip. All of the works and the journey itself will be recorded in a documentary presenting the confrontation of a young generation with the traces of breakthrough in Central and Eastern Europe.

Two moderators will accompany the group throughout the trip:

- ✓ a historian, who will support participants in content-related matters and introduce them to the historical context of events;
- ✓ a documentarian, who will teach them how to create coverage, i.e. how to choose topics and characters and how to document them.
