

# Vacation Courses Sommer 2024

|                      |                 |
|----------------------|-----------------|
| Python Data Analysis | 12.08. - 16.08. |
| LaTeX                | 19.08. - 23.08. |
| Rust                 | 26.08. - 30.08. |

The Physics/Meteo and Maths/Computer Science student councils organize 3 vacation courses for students and staff of FB08

**The courses are all free of charge!**

Please register up to 3 days before the course start

- **Python Data Analysis:** Basic introduction to programming with Python. Subsequent application in the analysis and visualization of data
- **LaTeX:** A typesetting system for the elegant creation of scientific documents and interactive PDFs
- **Rust:** Basic introduction to the modern programming language for parallel high-performance computing - with interactive, playful exercises

Registration and more information on the content of the courses

Details will be communicated by email at least one week before the start of a course
